## **Arthur G. Sutsch**

### **im Rahmen des Sonnenkraftwerkes**

- 1980: ISET - Institute for Solar Energy Technology, München:  
"Parabolic Dish Collectors 20/30/50 m with Gas Turbo-Converter 40/140/400  
kWe or Process Heat of 600-900 degree C".
- 1980 : Third International Conference of Power Engineering, Cairo, Egypt  
"Large Parabolic Dish Systems - LPDS"
- 1981: American Society for Mechanical Engineering, Houston, Texas  
" Small Gas Turbine with Large Parabolic Dish Collectors"
- 1981: Solar World Forum, Brighton, England:  
"Advantages of Large Parabolic Dish Systems for Power Generation"
- 1981: Atomkernenergie/Kerntechnik vol. 38, no.4 (1981):  
"Large Parabolic Dish Systems - LPDS - Large Parabolic dish collectors with  
gas turbines"
- 1981: Kodak - Bulletin für Angewandte Fotografie:  
"3-Sterne Observatorium"
- 1983: Europäische Gemeinschaft, Brüssel, Direktion Entwicklung Solarthermische  
Energie, Phase I and Phase II Study:  
"SEPP - Solar Energy Power Plant: Electricity, Process heat and Communication  
with Large Parabolic Dish Systems"
- 1986: American Society for Mechanical Engineers, Düsseldorf, BRD:  
"Operation and Control of Space-based Solar Energy Power Plants with CCGT  
Using Helium as a Working medium"
